

INTERSQUAT - FESTIVAL IN BERLIN

from 10th until 19th of September 2010

Dear all!

A little advice before reading our concept:

Setting a festival's frame is not an easy job. However, we would like to take this challenge.

Except from the creation of a frame, we won't set up a strict programme for you. This is neither manageable for us nor it carries out our principles. Intersquat is not some kind of a festival to be consumed. It is a D.I.Y.-festival and it lives from all our ideas and initiatives!

As well as a picture frame does not make sense without a picture, the festival cannot exist without your commitment. Therefore it is very important that you help us with the organisation of some workshops, discussion groups, actions, performances and whatever you want.

If you already have some ideas what you want to do, please send a mail to intersquat-berlin@riseup.net by the 13th of August, so we can already include your ideas to the planning. Of course you can also act spontaneously at the festival.

We are planning to host the festival from 10th to 19th of September. It depends on the number of announcements we get before whether the festival will be really that long. That means: The more ideas and initiatives from you, the longer the festival.

The fixed duration of the festival will be announced by August 13th on our blog (intersquatberlin.blogspot.de).

We are looking forward to working together with you all.

Have fun with the lecture of our concept and we see each other in Berlin in September!

INTERSQUAT - Festival in Berlin

Let's come together to provide a base for discussions, introducing different thoughts, initiating meetings, linking each other, developing new perspectives and creating a self-determined and autonomous free space from 10th until 19th of September 2010 at the Berlin INTERSQUAT-Festival.

Being inspired by other INTERSQUAT-Festivals, which took place at different locations all over the world, we want to develop our utopian ideas at the INTERSQUAT festival in Berlin with you together.

The possibilities to live a self-determined life are gradually being restricted. Many of the existing structures of squats and autonomous spaces are strongly threatened to become extinct. As a result more and more spaces disappear and with them the attached chance to organize ourselves, to discuss, to exchange experiences and to develop alternatives to given structures, go also.

From our point of view, it is necessary to criticise capitalism, leadership and the ruling structures in an all-embracing way. Hence we want to discuss about alternatives, experience the exchange and reflect on counter-structures against discrimination of living beings.
